### Option 1 - Block of the Month

The Australian Wildflowers quilt was designed by Val Moore who has especially chosen all the fabrics for this Block of the Month program. Instructions are included for both **hand appliqué (needle turn)** and **machine appliqué** along with the hand embroidery to bring out the exquisite fine detail. Choose your favourite stitching method - you can even do it all by buttonhole stitch - Val recommends using a single strand of normal sewing thread instead of stranded cotton. General requirements and complete details for fabric and thread selection are included within pattern.
